

Premium Galapagos Experience

Departs March 14, 2008. 10-night expedition program featuring 7-day Galapagos Island cruise with expert guides.

Many destinations promise visitors the chance to "step back into history." An expedition to the Galapagos Islands perhaps best exemplifies that promise. This cluster of islands is so isolated that many of its creatures cannot be found anywhere else on earth. From the giant tortoises that bear the Galapagos name, to the marine iguanas and "Darwin" finches, the Galapagos Islands afford visitors the chance to observe a living laboratory of adaptation.
